RS

18  
19 CAUSE OF ACTION: UNCONSTITUTIONALITY OF FEDERAL STATUTES  
20 REQUEST FOR ORDERS TO STOP TRANSFERRING ME INTO MENTAL HOSPITAL,  
21 FOR ORDERS TO NOT DO TRANSFERRING ME TO A HOSPITAL TO CURE OR TO  
22 TREAT A PHYSICAL SICKNESS WHICH I DO NOT HAVE, FOR ORDERS TO  
23 FORENSICALLY EXAMINE MY WHOLE BODY, ESPECIALLY MY BACKBONE AREA  
24 AND MY PELVIC BONE AREA

25 ① Jurisdiction: It is federal jurisdiction. The  
26 cause of action is unconstitutionality of federal  
27 statutes. This court has jurisdiction over this  
28 complaint. I am a victim of crime. Many times

REQUEST FOR ORDERS

I have reported the crime to police officers, investigators of District Attorney's Office, doctors, and have asked them for help, but they have transferred me into mental hospital.  
Now I ask the court to order police officers, investigators, doctors, to stop transferring me into mental hospital, to not do transferring me to a hospital to cure or to treat a physical sickness which I do not have, and I ask the court to order United States Attorney's Office, Northern District of California, to forensically examine my whole body, especially my backbone area and my pelvic bone area, to open an investigation, to stop the crime, and then to restore my health in the shortest time.

② Venue: I, who is the plaintiff, live in City of San Jose, California. The defendants are City of San Jose and County of Santa Clara, California.

③ Intradistrict Assignment: The events which give rise to this action occurred in Santa Clara County.

④ My name is Thao Ngoc Nguyen. I am the person requesting for orders.

My address: 2150 Monterey Road, #43, San Jose, CA 95112.

My telephone number: (408) 924-0807.

I am self-represented.

REQUEST FOR ORDERS

⑤ I want protection from being transferred into mental hospital, from being transferred to a hospital to cure or to treat a physical sickness which I do not have, by police officers, investigators, doctors. I want to have forensic examination of my whole body, especially my backbone area and my pelvic bone area, from United States Attorney's Office, Northern District of California.

⑥ Besides me, my younger brother needs protection from being transferred into mental hospital by police officers, investigators, doctors. My youngest brother's name is Joseph Hai Ngoc Nguyen. My younger brother is twenty six years old and he lives with me.

⑦ The following is the reason why I am filing in this court:

I am a victim of crime which is threatening my life, I am not mental and until now, I am not physically sick. All injuries and damages in my body, especially <sup>in CTN</sup> my backbone area and my pelvic bone area, are the result of the crime (my backbone area and my pelvic bone area have been hurted very much because of injuries and damages). I reported the crime to District Attorney's Office of Santa Clara County and told District Attorney's Office that because of the crime, my backbone area had

REQUEST FOR ORDERS

1 been hurted very much. I requested District  
2 Attorney's Office to give me an appointment  
3 for forensic check, examination, scan of my  
4 backbone area (please read the copy (enclosed)  
5 of the report which I gave to District Attorney's  
6 Office on July 2<sup>nd</sup>, 2007, when I came into  
7 District Attorney's Office). I saw Lt. Grant  
8 Cunningham of District Attorney's Office and Lt.  
9 Grant Cunningham gave me an appointment  
10 for forensic check, examination, scan of my  
11 backbone area but the appointment was on  
12 July 4<sup>th</sup>, 2007 (a holiday). I came to District  
13 Attorney's Office on another day (July 18th,  
14 2007) and requested District Attorney's Office  
15 to give me another appointment for forensic  
16 check, examination, scan of my backbone  
17 area, some investigators of District Attorney's  
18 Office did not give me an appointment  
19 for forensic check, examination, scan of  
20 my backbone area, they transferred me into  
21 mental hospital (mental section of Bascom  
22 hospital). One day later, mental section of  
23 Bascom hospital transferred me to Fremont  
24 hospital (a mental hospital). About eight  
25 weeks ago, I saw Assistant District Attorney Stephen  
26 Gibbons of District Attorney's Office and asked  
27 him to help me to have a forensic examination  
28 of my whole body, especially my backbone area,

## REQUEST FOR ORDERS

1 but he did not help. On November 13<sup>th</sup>, 2007,  
2 I came to emergency room of Santa Teresa  
3 Community Hospital. I told doctor that  
4 I reported the crime to District Attorney's  
5 Office and told doctor that because of the  
6 crime, my backbone area and my pelvic  
7 bone areas hurted very much. After x-raying  
8 my backbone area and my pelvic bone area,  
9 doctor told me that my backbone area and  
10 my pelvic bone area were normal and no  
11 evidence of devices. After that, doctor transferred  
12 me into mental section of Bascom hospital. About  
13 six hours later, mental section of Bascom  
14 hospital transferred me to Fremont hospital  
15 (a mental hospital). There was something  
16 wrong with ~~St~~<sup>(TN)</sup> Santa Teresa Community  
17 Hospital. There was something wrong in  
18 Santa Teresa Community Hospital.

19 Now I am home but my backbone area  
20 and my pelvic bone area are hurted very  
21 much and I am being threatened that  
22 it is possible that I will come into mental  
23 hospital which is far from my home (more  
24 farther than from my home to Fremont  
25 hospital) and will stay in that mental  
26 hospital for up to six months. The threat  
27 makes me afraid: I, who is not mental  
28 at all, who is a victim of crime, with the

## REQUEST FOR ORDERS

1 backbone area and pelvic bone area being hurted  
 2 very much because of crime (being damaged  
 3 because of crime) will come into a mental  
 4 hospital which is far from my home and stay  
 5 in that mental hospital for up to six  
 6 months. The threat makes my family  
 7 afraid too.

Some investigators of District Attorney's Office  
 were wrong when they did not give me an  
 appointment for forensic check, examination,  
 scan of my backbone area, and transferred  
 me into mental hospital. Assistant  
 District Attorney Stephen Gibbons of District  
 Attorney's Office was wrong when he did  
 not help me to have a forensic examination  
 of my whole body, especially my backbone  
 area. They were wrong because their  
 duty is the ~~pea~~<sup>(TN)</sup> prevention and stoppage  
 of crime. They must give me an  
 appointment for forensic check, ~~examination~~<sup>(TN)</sup>,  
 examination, scan of my whole body,  
 especially my backbone area, and must  
 open an investigation. That is the way  
 District Attorney's Office prevents and stops  
 crime. When they did not give me an  
 appointment for forensic check, examination,  
 scan of my whole body, especially my backbone  
 area, and some investigators of District Attorney's

## REQUEST FOR ORDERS

1 Office transferred me into mental hospital,  
2 they made the crime continue. When crime  
3 is committed, crime is not stopped, crime  
4 continues, the situation will be worse, many  
5 people will suffer. My backbone area and my  
6 pelvic bone area now are being hurted more  
7 because of more damages, because the crime  
8 is continuing. I do not want police officers,  
9 investigators, Assistant District Attorney,  
10 doctors, to malpractice or to do wrong  
11 things, I want them to protect me and  
12 stop the crime.

13 Until now, I am not physically sick,  
14 I am a victim of crime. My backbone area  
15 and my pelvic bone area are being hurted  
16 very much because of the crime. Because  
17 police officers, investigators, doctors, have  
18 many times been wrong when they have  
19 many times transferred me into mental  
20 hospital, because Assistant District  
21 Attorney Stephen Gibbone was wrong when he  
22 did not help me to have a forensic  
23 examination of my whole body, especially  
24 my backbone area, I am afraid that  
25 police officers, investigators, doctors, will  
26 transfer me to a hospital to cure or  
27 to treat a physical sickness which I do  
28 not have. All injuries and damages in my

REQUEST FOR ORDERS

1 body, especially in my backbone area and my  
 2 pelvic bone area, are the result of the crime.

3 The crime is continuing now. My backbone  
 4 area and my pelvic bone area now are being  
 5 hurted more because of more damages, because  
 6 the crime is continuing. There are other  
 7 damages in my body which are the result  
 8 of the crime. All injuries and damages in my  
 9 body need forensic check, examination, scan  
 10 from United States Attorney's Office, Northern  
 11 District of California. That is the reason why  
 12 I am filing in this court.

13 ⑧ The most recent dates when I was  
 14 transferred into mental hospital are  
 15 July 18<sup>th</sup>, 2007, and November 13<sup>th</sup>, 2007.  
 16 I saw Assistant District Attorney Stephen Gibbons  
 17 and asked him for help about eight weeks  
 18 ago (about one week before November 13<sup>th</sup>, 2007).

19 On July 18<sup>th</sup>, 2007, I came to District  
 20 Attorney's Office and requested District  
 21 Attorney's Office to give me another  
 22 appointment for forensic check, examination,  
 23 scan of my backbone area, some investigators  
 24 of District Attorney's Office did not give me  
 25 an appointment for forensic check, examination,  
 26 scan of my backbone area, they transferred me  
 27 into mental hospital (mental section of Bascom  
 28 hospital). In District Attorney's Office, I saw

## REQUEST FOR ORDERS

1 Investigator Moise Reyes, Investigator Denise  
2 Orocchi, two ~~investigators~~ (TN) other investigators,  
3 two police officers of Santa Clara County. When  
4 police officers of Santa Clara County handcuffed  
5 me, Investigator Moises Reyes was not there.  
6 When police officers of Santa Clara County  
7 handcuffed me, I was caused substantial  
8 emotional distress because the crime  
9 would continue and my body would be hurted  
10 more because of more damages which would  
11 be caused by the crime, I continued to  
12 request the investigators of District Attorney's  
13 Office to give me an appointment for  
14 forensic check, examination, scan of my  
15 backbone area. Please note that I had  
16 many times gone through this before (had  
17 many times been caused substantial emotional  
18 distress because the crime had would continue  
19 and my body had would be hurted more  
20 because of more damages which had would  
21 be caused by the crime), when I had reported  
22 the crime to San Jose police officers and San  
23 Jose police officers had handcuffed me and had  
24 transferred me into mental section of Bascom  
25 hospital (please read the copy (enclosed)  
26 of the report which I gave to District  
27 Attorney's Office on July 2<sup>nd</sup>, 2007, when  
28 I came into District Attorney's Office.

REQUEST FOR ORDERS

1 About eight weeks ago, I saw Assistant  
 2 District Attorney Stephen Gibbons of District  
 3 Attorney's Office and asked him to help  
 4 me to have a forensic examination of  
 5 my whole body, especially my backbone  
 6 area, but he did not help.

7 On November 13<sup>th</sup>, 2007, doctor in emergency  
 8 room of Santa Teresa Community Hospital transferred  
 9 me into mental section of Bascom hospital. About  
 10 six hours later, mental section of Bascom  
 11 hospital transferred me to Fremont hospital  
 12 (a mental hospital).

13 ① The following are orders I want: Because  
 14 the crime is continuing, because my backbone  
 15 area and my pelvic bone area are being hurted  
 16 very much, I ask the court for temporary  
 17 orders, and ask the court for a hearing  
 18 date for orders which are the same as  
 19 temporary orders and last longer than  
 20 temporary orders.

21 I. I ask the court to temporarily order  
 22 police officers, investigators, doctors, to NOT do  
 23 the following things to me, when I come to  
 24 police officers, investigators, doctors, to report  
 25 the crime, to tell them that my body is  
 26 being hurted because of injuries and damages  
 27 which are caused by the crime, to report  
 28 to ask them for help (right now, what I

## REQUEST FOR ORDERS

1 need most is a forensic examination of my  
2 whole body, especially my backbone area  
3 and my pelvic bone area (from United States  
4 Attorney's Office, Northern District of California<sup>(TN)</sup>  
5 California):

- 6 a. Transfer or try to transfer me into  
7 mental hospital.
- 8 b. Tell or try to tell me or anyone else,  
9 especially my family, that I am mental  
10 or something similar to that.
- 11 c. Make or try to make me or anyone  
12 else, especially my family, think or feel  
13 that I am mental or something similar  
14 to that.
- 15 d. Threaten or try to threaten to do  
16 more wrong things to me or anyone else,  
17 especially my family.

18 II. I ask the court to temporarily order  
19 police officers, investigators, doctors, to NOT  
20 do the following things to me, when I  
21 come to police officers, investigators, doctors,  
22 to report the crime, to tell them that  
23 my body is being hunted because of injuries  
24 and damages which are caused by the crime,  
25 to request, to ask them for help (right  
26 now, what I need most is a forensic  
27 examination of my whole body, especially  
28 my backbone area and my pelvic bone area).

REQUEST FOR ORDERS

1 (TN) (TN)  
2 ~~\_\_\_\_\_~~ from United States Attorney's  
3 Office, Northern District of California)?

4 a. Transfer or try to transfer me to a  
5 hospital to cure or treat a physical  
6 sickness which I do not have (in case of  
7 emergency or in case I must come to  
8 doctors myself, doctors may help me with  
9 injuries and damages in my body but they  
10 must request United States Attorney's  
11 Office, Northern District of California, to  
12 forensically examine injuries and damages  
13 in my body), to forensically examine my  
14 whole body, to open an investigation, to  
15 stop the crime, and then to restore my  
16 health in the shortest time, doctors may  
17 not do anything which makes United  
18 States Attorney's Office, Northern District  
19 of California, not to forensically examine  
20 injuries and damages in my body (not to  
21 forensically examine my whole body, not  
22 to open an investigation, not to stop the  
23 crime, not to restore my health in  
24 the shortest time. Please note that the  
25 best and right way is that United States  
26 Attorney's Office, Northern District of  
27 California, forensically examines my  
28 whole body, especially my backbone area  
and my pelvic bone area (open an investigation,

REQUEST FOR ORDERS

1 stops the crime , and then restores my health  
2 in the shortest time . I do not have come  
3 to doctors and then doctors request United  
4 States Attorney's Office , Northern District  
5 of California , to forensically examine my  
6 whole body , especially my backbone area  
7 and my pelvic bone area (to open an  
8 investigation , to stop the crime , and then to  
9 restore my health in the shortest time ).

10 b. Tell or try to tell me or anyone  
11 else , especially my family , that I am  
12 physically sick or something similar to that.

13 c. Make or try to make me or  
14 anyone else , especially my family , think  
15 or feel that I am physically sick or  
16 something similar to that.

17 d. Threaten or try to threaten to do  
18 more wrong things to me or anyone else ,  
19 especially my family .

20 III. It ask the court to temporarily  
21 order United States Attorney's Office ,  
22 Northern District of California , to  
23 forensically examine my whole body ,  
24 especially my backbone area and my pelvic  
25 bone area , to open an investigation (to stop  
26 the crime , and then to restore my health  
27 in the shortest time ).

28 Please note that I want to have an

1 expert witness and a lawyer (I am looking  
 2 for a lawyer) when United States Attorney's  
 3 Office, Northern District of California,  
 4 forensically examines my whole body,  
 5 especially my backbone area and my pelvic  
 6 bone area.

7 IV. I ask the court for a hearing date  
 8 for orders which are the same as temporary  
 9 orders and last longer than temporary orders.

10 Please note that I need a lawyer to  
 11 help me before court (I am looking for  
 12 a lawyer).

13 ⑩ 4. I am asking for my younger brother  
 14 to be protected and to also be covered  
 15 by the orders described in ⑨ I.: My younger  
 16 brother needs protection from being  
 17 transferred into mental hospital by  
 18 police officers, investigators, doctors. The  
 19 following is the reason why my younger  
 20 brother must be protected and must also  
 21 be covered by the orders described in ⑨ I.:

22 My younger brother is a victim of the  
 23 same crime and he is suffering. He is not  
 24 mental and is not physically sick. Like me  
 25 before, police officers (police officers of Santa  
 26 Clara County) handcuffed him and transferred  
 27 (TN)  
 28 transferred him into mental section of Bascom  
 hospital.

## REQUEST FOR ORDERS

1 I reported to District Attorney's Office  
 2 of Santa Clara County that my younger  
 3 brother was being a victim of the same  
 4 crime and he was suffering ) and requested  
 5 District Attorney's Office ) to protect him,  
 6 to examine his whole body, to open an  
 7 investigation, to stop the crime, and then  
 8 to restore his health in the shortest time.

9 I also reported to District Attorney's Office  
 10 that he is not mental and is not physically  
 11 sick, and police officers (police officers of  
 12 Santa Clara County) handcuffed him and  
 13 transferred him into mental section of Bascom  
 14 hospital (please read the copy (enclosed)  
 15 of the report which I gave to District  
 16 Attorney's Office on July 2<sup>nd</sup>, 2007, when  
 17 I came into District Attorney's Office ).  
 18 District Attorney's Office has not protected  
 19 him and has not stopped the crime.

20 The crime is continuing now. My younger  
 21 brother is suffering now because the crime  
 22 is continuing. He needs protection and the  
 23 crime must be stopped. His whole body  
 24 needs forensic examination.

25 b. Because my younger brother wants  
 26 me to have forensic examination of my  
 27 whole body, especially my backbone area,  
 28 and wants me to have forensic examination

## REQUEST FOR ORDERS

1 first, I ask the court to make orders  
2 so that I have forensic examination  
3 of my whole body, especially my backbone  
4 area (and my pelvic bone area), and I ask  
5 the court for one thing which is that  
6 when my younger brother asks the court  
7 to make orders so that he has forensic  
8 examination of his whole body, the court  
9 makes orders so that he has forensic  
10 examination of his whole body.

11 (11) I want the court to make orders now  
12 on the matters listed in (9), through (10),  
13 that will last until the hearing. The  
14 crime being continuing, my backbone  
15 area and my pelvic bone area being  
16 hurted very much because of the crime,  
17 are the reasons why I need these orders  
18 right now.

19 (12) Delivery of orders to law enforcement:  
20 I ask the court to give copies of the  
21 orders to law enforcement agencies.

22 (13) Other court cases: I have not asked  
23 any court for other orders against police  
24 officers, investigators, doctors.

25 (14) No fee for filing: I ask the court  
26 to waive the filing fee. The reason why  
27 I ask the court to waive the filing fee  
28 is that I am a victim of crime.

## REQUEST FOR ORDERS

1 (15) Jury demand: I demand jury hearing.  
 2 (16) I am a victim of crime. I reported the  
 3 crime to police officers, investigators of District  
 4 Attorney's Office, doctors, and I asked them  
 5 for help, but they transferred me into mental  
 6 hospital. Now I bring my case to court. I  
 7 am a victim of crime, I am a person who is  
 8 experimented, my body is experimented. My  
 9 backbone area and my pelvic bone area are  
 10 being hunted very much now because they are  
 11 being experimented (my backbone area and my  
 12 pelvic bone area are being in great danger  
 13 now). All I need now, are protective orders  
 14 to protect me (and of course, to protect my  
 15 younger brother too) from crime, to protect my  
 16 me ~~from~~ <sup>(TN)</sup> being ~~experimented~~ <sup>(TN)</sup> (and of course, to  
 17 protect my younger brother too) from being  
 18 experimented, to protect my whole body,  
 19 especially my backbone area and my pelvic bone  
 20 area, from being experimented. All I need  
 21 now, are a forensic examination of my whole  
 22 body, especially my backbone area and my  
 23 pelvic bone area, and <sup>(TN)</sup> an investigation  
 24 from United States Attorney's Office,  
 25 Northern District of California. I ask the  
 26 court to not order to transfer me to mental  
 27 hospital, to not order me to submit to a  
 28 mental or physical examination by examiners.

REQUEST FOR ORDERS

I ask the court to order United States Attorney's Office, Northern District of California, to forensically examining my whole body, especially my backbone area and my pelvic bone area, and to open an investigation. I am a victim of crime. My whole body, especially my backbone area and my pelvic bone area, needs forensic examination from United States Attorney's Office, Northern District of California. My case needs investigation from United States Attorney's Office, Northern District of California.

I am a victim of crime. I am in great danger now. My backbone area and my pelvic bone area are being hurted very much now (are being in great danger now) because of crime (because of being experimented). I need protective orders now to protect me from crime, from being experimented (my whole body, especially my backbone area and my pelvic bone area, needs protection from being experimented, now). Court must help me and must help me now. Court must make orders now on the matters listed in ④, through ⑩. That is the right way, right thing, in my case (I am a victim of crime and I reported the crime to District Attorney's Office, County of Santa Clara).

To: Santa Clara County District Attorney's Office  
Dear Sirs/Madams

One officer of District Attorney's Office told me to come to San Jose Police Department to report the crime. I came to San Jose Police Department on June 29, 2007 to report the crime. I came to San Jose Police Department two times to report the crime. The first time, one police officer of San Jose Police Department did not let me report the crime. The second time, one police officer of San Jose Police Department did not let me report the crime. I came to San Jose Police Department two times to report the crime but they did not let me to report the crime. I request that District Attorney's Office lets me report the crime to District Attorney's Office. First of all, I request that District Attorney's Office lets an attorney of District Attorney's Office see me to read the report which I gave to police officers of San Jose Police Department but they did not take it when I came to San Jose Police Department two times on June 29, 2007, and to help me to report the crime to District Attorney's Office.

THE COPY OF THE REPORT WHICH I GAVE TO DISTRICT ATTORNEY'S  
OFFICE ON JULY SECOND, 2007

From: Thao Ngoc Nguyen

To: Santa Clara County District Attorney's Office

Dear Sirs / Madams

What I am reporting to District Attorney's Office  
is a crime.

Please read the three reports which I give to  
District Attorney's Office, so that you can fully  
understand my younger brother's case and my case.

The three reports, which I give to District  
Attorney's Office, are:

Report 1: This is a crime which I reported  
to District Attorney's Office on June 22, 2007.  
This is a crime which is threatening my life.

Report 2: My backbone area has been hurted  
very much by causing damages to my backbone area.

Report 3: The report which I gave to Investigator  
McCourtie of District Attorney's Office on June 22, 2007  
when I came into District Attorney's Office. The  
report consists of four parts (one of four parts, I  
wrote in Vietnamese).

Report 2:

My backbone area has been hurted very much.

- Waves have been radiated in my backbone area from the small electronic devices which have been put on my backbone area. This has caused damages to my backbone area. My backbone area have been hurted very much.

- The small electronic devices which have been put in my backbone area, have seemed to be exploded and the air or something like force from these small electronic devices, has struck my backbone area. This has caused damages to my backbone area. My backbone area have been hurted very much.

1. My backbone area is being hurted ~~very much~~ now.

2. I want you to read these reports now.

3. I want you to take appropriate measures to protect me now. First of all, you must take these measures:

- Detecting the waves, which are being radiated in my backbone area from the small electronic devices which have been put in my backbone area, thoroughly.

- Checking, scanning my backbone area thoroughly to find the small electronic devices which have been put in my backbone area.

- Protecting my backbone area by doing everything to take all the small electronic devices which have been put in my backbone area, out of my backbone area.

- Doing everything to restore my health in the shortest time.

From: Thao Ngoc Nguyen  
To: District Attorney's Office

Dear Sirs/Madams,

This is the report on our matter of having been experimented (my younger brother and I have been experimented).

I am Thao Ngoc Nguyen. My younger brother is Joseph Hai Ngoc Nguyen. I sketchily report our case as follows:

My younger brother and I have been experimented.

Some persons have many times come into our home, when everybody in our home has been sleeping, and have many times put small electronic devices in my younger brother's body and in my body. With these small electronic devices, the experimenters have experimented on my younger brother and on me. They have made these small electronic devices radiate waves (definition of wave: a disturbance somewhat similar to a wave in water that transfers energy progressively from point to point, for example: a light wave, a sound wave) in my younger brother's body and in my body: Waves have been radiated in our heads, in our necks, in our trunks, in our limbs. Radiating waves in our bodies from these small electronic devices has caused damages to our bodies, has affected our health very much, and has made us suffer very much. We have been tired and have felt unbearable uncomfortable (I have often seen my younger brother tired and listless). Furthermore, in my case, my flesh has been harmed because waves, which have been radiated from the small electronic devices which have been put in my body, have gone through my flesh. Many places in my body have been hurted, everytime, in these places in my body, waves have been radiated strongly from the small electronic devices which have been put in my body.

I also want to report, so that you can fully understand our case, that some persons have also many times come into our home and have also many times put electronic devices in our home to make experiments. With these electronic devices, the experimenters have heard, have seen everybody in our home, have made waves emit in our home, and have done many things else in our home.

My younger brother has been experimented on for about three months. I have been experimented on for at least more than five years. Up to now,

1. There has been no investigating our case at all.

2.a. There has been no detecting the waves, which have been radiated in our bodies from the small electronic devices which have been put in our bodies, at all.

b. My younger brother's body was checked one time, when my younger brother was in the mental section of Bascom hospital which is on Bascom Avenue, San Jose, (when small electronic devices were in my younger brother's body, when my younger brother was experimented on with these small electronic devices, when waves were radiated in my younger brother's body from these small electronic devices, police officers came into our home. Police officers came into our home but they did not investigate my younger brother's case at all. They handcuffed my younger brother and transferred my younger brother into the mental section of Bascom hospital), and nothing was found. This was just a malpractice with the purpose of making everybody have been wrong in my younger brother's case, with the purpose of making everybody have been wrong in thinking that my younger brother has been mental and there has been no putting small electronic devices in my younger brother's body (I know that this was just a malpractice, because I have been malpracticed many times with the purpose of making everybody have been wrong in my case, with the purpose of making everybody have been wrong in thinking that I have been mental and there has been no putting small electronic devices in my body) (please read the report on our matter of having been malpracticed (my younger brother and I have been malpracticed), so that

you can fully understand our case. I enclose the report on our matter of having been malpracticed, with this report). My younger brother's body needs being checked thoroughly, being scanned thoroughly to find the small electronic devices which have been put in my younger brother's body. As for my own case, there has been no checking, no scanning my body to find the small electronic devices which have been put in my body, at all.

I request that District Attorney's Office must take appropriate measures to protect my younger brother and me immediately when District Attorney's Office receives this report. First of all, District Attorney's Office must take the following measures:

1. Investigating our case thoroughly.

2.a. Detecting the waves, which have been radiated in our bodies from the small electronic devices which have been put in our bodies, thoroughly, checking, scanning our bodies thoroughly to find the small electronic devices which have been put in our bodies.

b. Checking, scanning our clothes thoroughly to find the small electronic devices which have been put in our clothes.

c. Checking, scanning our home and everything in our home thoroughly to find the electronic devices which have been put in our home.

3.a. Protecting us by doing everything to take all the small electronic devices which have been put in our bodies, out of our bodies.

b. Protecting everybody in our home by doing everything to take all the electronic devices which have been put in our home, out of our home.

4.a. Protecting everybody in our home so that nobody come into our home, when everybody in our home is sleeping, and put small electronic devices in the body of anybody in our home.

b. Protecting everybody in our home so that nobody come into our home and put electronic devices in our home to make experiments.

5. Doing everything to restore our health in the shortest time.

From: Thao Ngoc Nguyen  
To: District Attorney's Office

Dear Sirs/Madams,

This is the report on our matter of having been malpracticed (my younger brother and I have been malpracticed), with which I supplement the report on our matter of having been experimented (my younger brother and I have been experimented).

I am Thao Ngoc Nguyen. My younger brother is Joseph Hai Ngoc Nguyen. I sketchily report our case as follows:

My younger brother and I have been malpracticed (police malpractice and medical malpractice). My younger brother and I have been malpracticed with the purpose of making everybody have been wrong in our case, with the purpose of making everybody have been wrong in thinking that we have been mental and there has been no putting small electronic devices in our bodies.

First of all, I want to report my case (then I will report my younger brother's case):

At least more than five years ago, when small electronic devices were in my body, when I was experimented on with these small electronic devices, when waves were radiated in my body from these small electronic devices, I called police. Police officer came but he did not investigate my case at all, he handcuffed me and transferred me into the mental section of Bascom hospital which is on Bascom Avenue, San Jose.

After that, because the small electronic devices were still in my body, because I was still experimented on with these small electronic devices, because the waves were still radiated in my body from these small electronic devices, because I was tired and felt unbearable uncomfortable, I many times called police again. Police officers came but they did not investigate my case at all, and one or two times, they handcuffed me and transferred me into the mental section of Bascom hospital.

After that, because I had many times called police, police officers had come but they had not investigated my case at all, and one or two times, they had handcuffed me and had transferred me into the mental section of Bascom hospital, I many times walked-in into the emergency room of Bascom hospital, talked to doctor about my case and asked doctor to check, to examine my body. Doctor did not check, did not examine my body at all, and at least one time, doctor transferred me into the mental section which is in Bascom hospital too.

After that, because I had many times walked-in into the emergency room of Bascom hospital, had talked to doctor about my case and had asked doctor to check, to examine my body, doctor had not checked, had not examined my body at all, and at least one time, doctor had transferred me into the mental section which is in Bascom hospital too, I walked-in into the emergency room of the hospital which is on Jackson Avenue, near McKee Road, San Jose, with my father. I reported my case to doctor on paper, and also on paper, I asked doctor to check, to examine my body. Doctor did not check, did not examine my body at all. Doctor did not talk to me at all. Doctor only told me that I was mental and doctor transferred me to the mental section of Bascom hospital. I steadfastly refuse to come to the mental section of Bascom hospital. The staff of the emergency room called an ambulance of Bascom hospital to come to the hospital on Jackson Avenue to transfer me to the mental section of Bascom hospital. I steadfastly refuse to come to the mental section of Bascom hospital. The staff of the emergency room called police. I steadfastly refuse to come to the mental section of Bascom hospital. After that, police officers handcuffed me and transferred me to the mental section of Bascom hospital.

After coming home from the mental section of Bascom hospital, I "was advised" to make an appointment to come to Josefa Chaboya de Narvaez Mental Health Center, 614 Tully Road, San Jose, CA 95111, to open a case to see a mental doctor and to take mental medicine. I made an appointment to come to Josefa Chaboya de Narvaez Mental Health Center to open a case to see a mental doctor and to take mental medicine. I also want to

report, so that you can fully understand my case, that I have always told the mental doctor of Josefa Chaboya de Narvaez Mental Health Center that I have been not mental.

From that time to the present, it has been already at least more than five years, small electronic devices have been in my body, I have been experimented on with these small electronic devices, waves have been radiated in my body from these small electronic devices. Radiating waves in my body from these small electronic devices has caused damages to my body, has affected my health very much, and has made me suffer very much. I have been tired and have felt unbearable uncomfortable. Furthermore, my flesh has been harmed because waves, from these small electronic devices, have gone through my flesh. Many places in my body have been hurted, everytime, in these places in my body, waves have been radiated strongly from these small electronic devices. However, if I have called police, I have been afraid of being malpracticed: Police officers have come but they have not investigated my case at all, they have handcuffed me and have transfered me into the mental section of Bascom hospital. If I have walked-in into the emergency room of a hospital, have talked to doctor about my case and have asked doctor to check, to examine my body, I have also been afraid of being malpracticed: Doctor has not checked, has not examined my body at all, doctor has transfered me into the mental section of Bascom hospital. Up to now, (1) there has been no investigating my case at all, (2a) there has been no detecting the waves, which have been radiated in my body from the small electronic devices which have been put in my body, at all, (2b) there has been no checking, no scanning my body to find the small electronic devices which have been put in my body, at all. Furthermore, each month, I have had to come to Josefa Chaboya de Narvaez Mental Health Center to see the mental doctor and to take mental medicine. I also want to report, so that you can fully understand my case, that I ended coming to Josefa Chaboya de Narvaez Mental Health Center to see the mental doctor and to take mental medicine, about one month ago.

That is my case. The following is my younger brother's case:

Knowing that there was not yet anybody to help me to oppose the putting of small electronic devices in my body, to oppose the experimenting of me with these small electronic devices, to oppose the making of these small electronic devices to radiate waves in my body, and knowing that there was not yet anybody to help me to oppose the malpracticing of me, the experimenters began to calculate on my younger brother, and about three months ago, small electronic devices were in my younger brother's body, my younger brother was experimented on with these small electronic devices, waves were radiated in my younger brother's body from these small electronic devices. When small electronic devices were in my younger brother's body, when my younger brother was experimented on with these small electronic devices, when waves were radiated in my younger brother's body from these small electronic devices, police officers came into our home. Police officers came into our home but they did not investigate my younger brother's case at all. They handcuffed my younger brother and transfered my younger brother into the mental section of Bascom hospital. The things which my younger brother went through are exactly the same as the things which I went through before.

After coming home from the mental section of Bascom hospital, my younger brother "was advised" to do the thing which is exactly the same as the thing which I "was advised" to do before. My younger brother "was advised" to make an appointment to come to Josefa Chaboya de Narvaez Mental Health Center to open a case to see a mental doctor and to take mental medicine. I drastically dissuaded my younger brother from making an appointment to come to Josefa Chaboya de Narvaez Mental Health Center to open a case to see a mental doctor and to take mental medicine because I knew that my younger brother was being malpracticed. My younger brother decided not to make an appointment to come to Josefa Chaboya de Narvaez Mental Health Center to open a case to see a mental doctor and to take mental medicine.

My younger brother's situation now is the same as my situation now: small electronic devices have been in his body, he has been experimented on with these small electronic devices, waves have been radiated in his body from these small electronic devices. Radiating waves in his body from these small electronic devices has affected his health very much, and has made him suffer very much. He has been tired and has felt unbearable uncomfortable. I have often seen him tired and listless. However, if I have called police, I have been afraid of the malpracticing of him: Police officers have come but they have not investigated his case at all, they have

handcuffed him and have transferred him into the mental section of Bascom hospital. Up to now,

1. There has been no investigating his case at all.

2a. There has been no detecting the waves, which have been radiated in his body from the small electronic devices which have been put in his body, at all.

b. His body was checked one time, when he was in the mental section of Bascom hospital, and nothing was found. This was just a malpractice with the purpose of making everybody have been wrong in his case, with the purpose of making everybody have been wrong in thinking that he has been mental and there has been no putting small electronic devices in his body (I know that this was just a malpractice, because I have been malpracticed many times with the purpose of making everybody have been wrong in my case, with the purpose of making everybody have been wrong in thinking that I have been mental and there has been no putting small electronic devices in my body). His body needs being checked thoroughly, being scanned thoroughly to find the small electronic devices which have been put in his body.

Now I want you to help us to solve our matter of having been malpracticed (my younger brother and I have been malpracticed): bring this malpractice (in the past and in the present) to light, and prevent malpractice from happening to us in the future, because, first of all, right now, I do not want that my younger brother and I are malpracticed:

1. There is no investigating our case at all.

2.a. There is no detecting the waves, which have been radiated in our bodies from the small electronic devices which have been put in our bodies, at all.

b. There is no checking, no scanning our bodies to find the small electronic devices which have been put in our body, at all.

3. Police officers handcuff my younger brother and me. Police officers or doctors transfer my younger brother and me into the mental section of Bascom hospital.
